

Product Description

High-density polycarbonate for the deflashing of rubber parts under cryogenic conditions

General Information

Availability: Worldwide

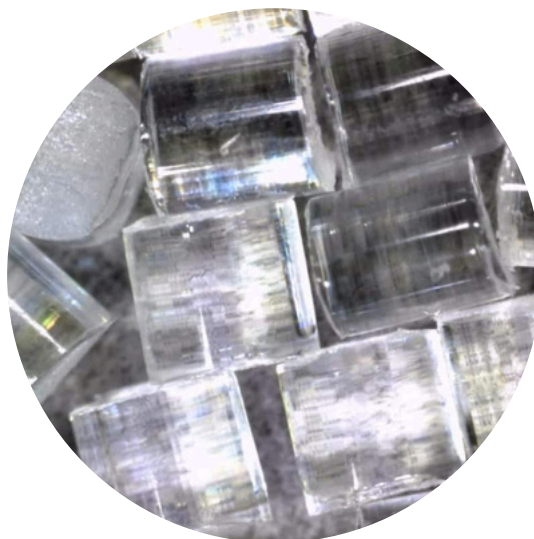

Uses: Cryogenic shotblasting

Features: High viscosity (molecular branched)

Appearance: Natural pellets

RoHS status: Compliant

Food grade: EU & FDA compliant

Characteristics

Specific gravity: 1.20g/cm³

Compound: 100% prime virgin grade polycarbonate, no reprocessed materials permitted

Packaging: 25kg Multi-walled cardboard boxes
125kg Fibre drums

SIZE (mm)	SIZE (Inches)	SHAPE	Standard colours
0.5mm	0.020"	CYLINDRICAL/CUBIC	Natural
0.75mm	0.030"	CYLINDRICAL/CUBIC	Natural
1.00mm	0.038"	CYLINDRICAL/CUBIC	Natural
1.14mm	0.045"	CYLINDRICAL/CUBIC	Natural
1.2mm	0.047"	CYLINDRICAL/CUBIC	Natural
1.5mm	0.060"	CYLINDRICAL/CUBIC	Natural
2mm	0.080"	CYLINDRICAL/CUBIC	Natural

Non standard sizes and/or colours are available upon request
